"

They're not just contractors; I view them more as an extension of my team.

— Randall Brous, MPulse Software

The team figures out any problem that we ask them to and treat our project like it's a part of their own company.

— Simone Zacharia, GoBeagle

I've worked with a number of different teams, both domestic and offshore, and InApp proved to be the best at executing designs and architecture in a very professional manner.

— Brandon Burris, Z5 Inventory
